## Materiais

### Water resistant Plywood made/ Contraplacado Marítimo

As séries no catálogo com estes símbolos são produzidas em contraplacado marítimo.

O contraplacado marítimo é um derivado de madeira obtido por colagem de camadas adjacentes com fios cruzados, em ângulos rectos, com faces em madeira desenrolada. Qualidade superior para ambientes húmidos, conferida intrinsecamente pela essência da madeira utilizada.

### Superpan

Séries fabricadas em Superpan de 16mm com acabamento em laminado ou lacado. O Superpan é um painel constituído por aglomerado de partículas de madeira aglutinadas com resinas (UF), sendo as face em MDF conferindo ao painel uma melhor performance mecânica e excelente qualidade da superfície. Presentemente este é o material mais utilizado pela generalidade dos fabricantes de mobiliário de casa de banho.

### Lavatórios

#### Cerâmicos

Produzidos em cerâmica sanitária, são fabricados de acordo com os requisitos das Normas Europeias e respectiva Marcação CE. Directiva Comunitária 89/106/CE, EN 14688:2006.

### Lavatórios

#### Vidro

Produzidos em Vidro de 15 mm de espessura termoendurecido, pintado no bordo inferior.

Os lavatórios de Vidro são fabricados de acordo com os requisitos das Normas Europeias e respectiva Marcação CE. Directiva Comunitária 89/106/CE, EN 14688:2006.

### Espelhos

#### "MIRALITE® REVOLUTION"

A gama de espelhos, são produzidos em vidro de 4mm pela SAINT-GOBAIN.

O espelho Miralite Revolution é um espelho inovador com padrões ecológicos sem substâncias corrosivas conforme a regulamentação REACH.

### Apliques

Os apliques são fabricados em alumínio e latão, sendo a sua produção de acordo com os requisitos das Normas Europeias e respectiva Marcação CE. 73/23CEE Directiva de Baixa Tensão, 93/68/CEE Directiva de Mercado CE, EN 60598-1:2000, EN 60598-2-1:1989.

## Tampos

Os tampos Play são fornecidos sem qualquer furo. Assim, terá a possibilidade de efectuar a furação na disposição que entender. As medidas dos furos que aconselhamos são as seguintes:

FURE SEMPRE PELA PARTE DE CIMA DA PEÇA

SERRA CRANEANA PARA FURO DE VÁLVULA

64mm

SERRA CRANEANA PARA FURO DE MONOCOMANDO

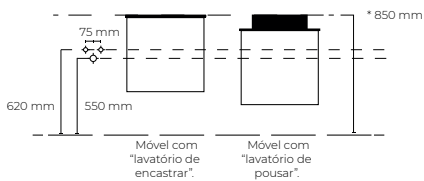

35mm

## Cotas de fixação

Na fixação dos móveis deve ter em conta as medidas do esgoto e das saídas de água, bem como a altura final do móvel que pretende aplicar. No caso da utilização de lavatório sobre o móvel, deve ter em conta a altura do lavatório para determinar a altura de fixação do móvel. Nos casos em que a medida do esgoto não esteja correcta, terá que furar o interior do móvel.

\* Medidas aconselhadas

## Isolamento com silicone neutral

É importante isolar com silicone neutral todos os locais onde possam ocorrer infiltrações de água fruto da normal utilização dos móveis. Este procedimento ajudará a preservar e prolongar o bom estado do seu móvel.

## Fichas técnicas

Podem aceder às fichas técnicas e manuais de instruções de cada série no nosso website em: [www.aml-sanitarios.com](http://www.aml-sanitarios.com)

## Registo INPI

Este catálogo contém desenhos ou modelos registados no INPI (Instituto Nacional de Propriedade Industrial), a sua utilização ou cópia sem consentimento do titular do direito, será punida por lei nos termos do Código da Propriedade Industrial, Artigo 322º.

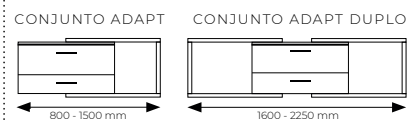

## Adapt

### Adapt e as suas medidas

A Série Adapt tem a particularidade de ser versátil na sua dimensão. Com um só modelo pode instalar o seu móvel com medidas entre os 800 mm e os 2250 mm.

Podem ser instalados com lavatório à esquerda ou à direita e a sua forma em "U" é o que permite ser extensível. Após sua fixação à parede, permanecerá fixo (com a medida pretendida).\*

Consulte ficha técnica e manual de instruções em [www.aml-sanitarios.com](http://www.aml-sanitarios.com)
